Introduction

The Swiss Russian Forum (SRF) has created the Suvorov-Prize as an award for outstanding innovative projects. Marketability plays a decisive role in the selection of the Prize-winners as the marketability of the innovation is viewed essential.

The Suvorov-Prize will be bestowed upon Swiss and/or Russian citizens whose projects have a cross-national or international impact as stipulated in the statutory aims of the SRF.

The name of the prize honours the Russian General Alexander V. Suvorov who, in 1799, fought against Napoleon's army in the Gotthard area of central Switzerland. There, a Suvorov monument has been erected in memory of the General's and his Russian soldiers' brave campaign to assist the Swiss. Suvorov is seen as an early bridge-builder between Switzerland and the Russian Federation.

Apart from distinguishing the winners, the Suvorov-Award is also intended to provide encouragement and additional publicity as well as to serve as a reference. The Suvorov-Prize provides the winner with a cash prize and one-year start-up coaching for the innovation project.

The Suvorov Prize is organised in cooperation with the Foundation for Assistance to Small Innovative Enterprises (FASIE) and under the auspices of the Swiss Embassy in Moscow and Canton of Zurich.

Purpose

The Suvorov Prize is to encourage young researchers and inventors to present creative projects to an international market thus supporting their countries' economy.

Since Switzerland internationally belongs to the most innovative countries we would like to strengthen the long-term economic relations between the two countries through our cooperation with FASIE.

Organisation

The SRF is responsible for the organisation of the Suvorov-Award on an annual basis. Media coverage will generate publicity and additional encouragement for future participation.

A Russian-Swiss Jury of experts will carefully examine and evaluate all submitted projects.

Eligible for the SRF Suvorov-Award are: students, graduates, post-graduates, scientific staff at all universities/colleges, as well as companies or their designated representatives.

Overview of Assessment Criteria

Creativity:	Original, Interdisciplinary, Simplicity of idea
Innovation value:	Transfer between science and business, time elapsed since moment of innovation meets specifications; project leads to improvement relative to status quo
Social relevance:	Timeliness of the project, project meets a social need; project has a broad social impact
Marketability:	Project refers to market demand; feasibility, relevant for and realisable in the market; financial viability
Swiss Russian context:	Common Swiss/Russian elements are a prerequisite.
